WASTE MANAGEMENT POLICY

Royal Dental College strictly adheres to the waste management policy. We are committed and adopt policies so as to create a clean, safe environment by timely effective disposal of the waste. Inefficient and improper disposal of waste can be hazardous to the health, life of individuals and our environment. We adhere to the 3R's of waste management that is **Reduce, Recycle, Reuse** and have necessary machinery and facilities to achieve this. The waste generated in our campus are Solid, Liquid, Bio-medical, E-waste, Hazardous chemicals and radioactive waste.

PRINCIPLES OF WASTE MANAGEMENT

- Evaluate type and nature of waste
- Estimate the volume of waste
- Assess handling, storage, transportation and disposal methods of waste along with its impact on environment

OBJECTIVES OF WASTE MANAGEMENT

- Awareness about reducing waste in the campus and its proper disposal
- Encourage all staff and students to adopt eco friendly practice to reduced waste
- Segregation of waste in initial stages
- Collect, segregate and manage biomedical waste according to guidelines
- Reduce paper waste and E waste
- Standards measures according to guidelines for management of hazardous substances
- Monitor effective operation of sewage treatment plant
- Reuse the waster after treatment
